### SUMMARY OF INFORMATION

During this session, I first saw a round, thin object that looked like a wheel. Then I saw a long, slender object go through the center of the wheel.

I then saw a clear object that was round and looked like a bowl. Inside the bowl was a hot liquidy substance. At this point, I kept wanting to say "bubbling water."

Then I saw myself beside a small body of water and I came up with the image of "testing waters."

I then found myself in a civilian population and I could see a young girl who looked like she *g*disguises herself.

While I in the civilian population, I sensed that there was price raises, fixed rates, and a "mark up" in prices.

I also realized that the man who was ahead of this country was not ~~the~~ real good and the man in power before him was a much better man.
